BIOGRAPHY

I have over 20 years of experience building and leading technical teams. I've delivered over 150 product releases and platform launches at scale in very complex organizational environments.

Throughout my career, I've built teams, guided investments, aligned organizations, and kept my clients and users at the forefront of everything I do. I've worked for a variety of industries, including software, health care, logistics, mining, energy, video production and broadcast. I believe in the power of teams, continuous improvement, and I'm dedicated to creating environments where teams can thrive and deliver their best work.

Prior to founding Millicent March, I was recognized as a Top 40 under 40 by the Ottawa Business Journal. I'm proud to be an active Professional Engineer and an active member of the Agile, SAFe and Product Management associations in Ottawa.

During my eight years providing professional services to enterprise organizations, I supported 35 clients in achieving their strategic goals.
